

2008 Senior Nutrition Task Force Member Survey Results

July 15, 2008

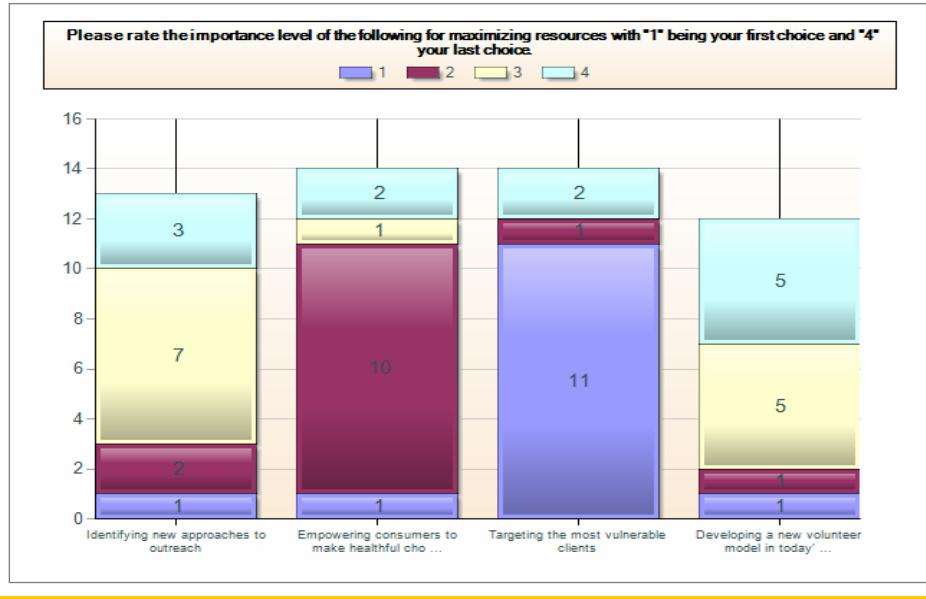

Purpose

- Make sure everyone's input is heard in a confidential process
- To help focus on the overarching goal-

*"Help Older Minnesotans Maintain Their Independence through
Access to Healthful Foods."*

- Identify most important from three key areas

The importance level for maximizing resources with "1" being first choice and "4" being last choice.

Importance level for building relationships with "1" being first choice and "6" being last choice.

Importance level for creating a sustainable program with "1" being first choice and "6" being last choice.

Please rate the importance level of the following for creating a sustainable program with "1" being your first choice and "6" your last choice.

Is there any other focus area(s) you would like included?

- **Funding:** transfers, intrastate funding formula, local financial partnerships
- **Contracting process:** multiple responsibilities, streamlining
- **New models and approaches:** re-invent senior nutrition, support high risk people in accessing healthy choices
- **Building relationships:** work together to determine efficient/effective use of funds
- **Recognizing differences:** rural and urban settings

Effectiveness
