Description: Learn about a 2011 Legislative initiative that is being implemented through the MinnesotaHelp Network™, the Department of Human Services, the Minnesota Board on Aging and its six area agencies on aging. Changes to the Long-term Care Consultation (LTCC) statutes were made during the Legislative Special Session in July 2011. This initiative is an expansion of long-term care consultation and long-term care options counseling and is available to people of all ages who want to move into a Registered Housing with Services establishment. The expanded LTCC service will offer long-term care options counseling services to people who are considering a move to Registered Housing with Services which is estimated to be 30,000 Minnesotans per year. The service is being implemented through the Senior LinkAge Line® and the MinnesotaHelp Network™. An update about the Return to Community initiative will also be provided.

If you are unable to make any of the sessions below, a videoconference will be held through the Aging and Adult Services Division of DHS on September 22, 2011 from 9:30am-12:00pm and 1:30-4:00pm.
